

# PRF-PRT-PRP-PRA 220 FLAT PANEL MOUNT

Each mount comes with two VESA mounting plates – one combination of 75/100 (mm) and one 75 (mm)-only plate for smaller mounting surfaces. All Prestige flat panel mounts easily support most VESA-standard LCD flat panels on the market today.

**Step 1**  
Invert the monitor and lay it on a soft and flat surface. Secure the mounting bracket to the monitor using the six (6) M4 x 10 Phillip screws (supplied). Secure the prestige front plate to the VESA 75 bolt pattern found on the mounting bracket using the four (4) M4 x 6 (mm) Phillip screws (supplied).  
**CAUTION: DO NOT OVER TIGHTEN THE M4 SCREWS TO THE MONITOR.**

**PRESTIGE**
