Premier Mounts Revolutionizes Short-Throw Projector Mounts

New wall-mounted universal projector mount extends short-throw projectors from 7 up to 67 inches and includes lockable equipment storage area

ANAHEIM, CALIF. (April 10, 2009) – The introduction of short-throw projectors in the classroom has created a need for compatible, out-of-the-box mounting solutions. In an effort to keep up with the demands of its customers, Premier Mounts (www.mounts.com) is pleased to announce the UNI-STA, a new universal mount for short-throw projector wall mounting.

Designed to fit all short-throw projectors currently on the market, the UNI-STA features a universal mount with expandable reach and a lockable GearBox™ designed to secure a small PC or other control device.

“The UNI-STA was developed to satisfy the growing demand for short-throw projector wall mounts,” said Jason Cole, product marketing manager at Premier Mounts. “Most competitive products require the additional purchase of a mount, have location restrictions and poor cable management. The UNI-STA combats these limitations with its integrated universal mount that fits nearly all short-throw projectors and includes built-in lateral shift for installation flexibility and multiple avenues for cables to travel.”

With a wall-mounted projector, installers don't need to worry about removing ceiling tile waste and the possible environmental remediation that accompanies a ceiling installation. The UNI-STA is the only short-throw arm that mounts directly to concrete, single or dual-studs or steel studs and includes all the components needed for a complete installation. Additional UNI-STA features include:

- Supports up to 50 lbs.
- +/-16.5° tilt; +/- 7.5° roll; 360° yaw
- Adjusts from 7 to 27 inches (up to 67 inches with STA-EXT extension adapter)
- Lockable GearBox™ A/V equipment storage box
- Lateral shift at the wall for adjustment to center of whiteboard/screen
- Channels to route and hide equipment cables
- Mounts to single and dual studs, steel studs and concrete

- Available in both white (UNI-STA) and black (UNI-STB)
- Also available prepackaged with extension model (UNI-EXT)

The UNI-STA is available for purchase from [Premier Mounts](#) or through an authorized dealer. (UNI-STA) MSRP: \$370; (UNI-EXT) MSRP: \$420; (STA-EXT) MSRP: \$50. To find out more about these and other products, please visit www.mounts.com or call 800.368.9700.

About Premier Mounts

For more than 30 years, Premier Mounts has been at the forefront of the audio/visual industry, creating solutions that have opened new opportunities for the use of A/V technology in homes, businesses and educational institutions.
