DISPLAY MOUNT ASSEMBLY

Printing Spec: PS-001

The **Display Mount Assemembly** is a clam shell type mount designed for light weight displays. The Display Mount can hold displays that use either the AMPs or NEC hole plattern.

Disassemble the **Display Swivel** from the mount and attach the customer supplied display using the screws provided with the display. Reattach the Display Swivel to the mount and tighten the 3/8" nut so the friction bearings are holding the display in a stationary position.

The **Base Swivel** can be mounted to a flat surface with the 1/4" x 1" long carriage bolts, flat washers, and nylok hex nuts supplied in the hardware bag.

Product Mounting Disclaimer

Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brakes lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with the original vehicle manufactures specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.
