## Clevis Mount

Without the printer attached, place the mount on the clevis. Align the countersunk holes with the corresponding bolt hole pattern on the clevis.

Using the (4) .25-20 phillips flat head screws and nuts provided in the hardware bag, fasten the mount to the clevis.

Attach the INTERMEC PB42 printer to the mount using the (4) .25-20 phillips pan head screws provided in the hardware bag.

## Pole Mount

Place the U-bolts provided in the hardware bag around the pole and attach the U-bolt clamp onto the U-bolts. Place the ends of the U-bolts through the printer mount and secure using the nuts.
