

INSTALLATION INSTRUCTIONS

Product**7160-0986****REMOVABLE TRAY - SMALL WORKSTATION****Revision**

Rev.A

Form

INST-791

Printing Spec:PS-001

This instruction sheet is for installing the 7160-0986 removable tray into the 7160-0947 small workstation.

Installation:

Refer to the image on page 2 for steps 1 through 4.

Step 1. - remove the equipment mounting plate from the workstation by removing the (4) #10-32 x 3/8" long washer head machine screws which fasten it to the back wall of the workstation. Discard the mounting plate and reinstall the (4) washer head screws.

Step 2. - Attach the (2) tray mounting brackets to the inside of the workstation with the #10-32 x 3.8" long washer head machine screws provided in the hardware bag.

Step 3. - (Optional) radio mounting brackets or other types of equipment can be attached to the bottom side of the removable tray. This can be done using the existing #10-32 x .50 mounting studs which are pressed into the removable tray or by field drilling the removable tray to fit with your specific type of equipment. #10-32 nylock nuts have been supplied for use with the pressed-in studs. Other mounting hardware will need to be supplied by the end user if field drilling is required for other types of equipment.

Step 4. - Set the removable tray on top of the mounting brackets installed in step 2 and fasten in place with the #10-32 x 3/8" long washer head machine screws supplied in the hardware bag.

Product Mounting Disclaimer

Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brakes lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with the original vehicle manufactures specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.
