Freightliner M2 dash mount

Printing Spec:PS-001

This instruction sheet is for the Gamber-Johnson Freightliner M2 dash mount. For other products sold by Gamber-Johnson please reference their specific instruction sheets.

The Freightliner dash mount is designed to mount over the current vehicle heater controls and use a Zirkona for Big Rigs mount to complete the solution.

Attaching the mount:

1. Remove the (4) sheet metal screws that hold the heater control panel in place.
2. Place the Freightliner M2 dash mount over the heater control panel and attach with the 1-1/4" long sheet metal screws and lock washers found in hardware bag 7120-0880.

Note: Be careful not to overtighten the screws. They are attaching to "U" nuts.

(4) sheet metal screws

Freightliner M2 dash mount

longer screws and
lock washers

Product Mounting Disclaimer

Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brakes lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with the original vehicle manufacturers specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.

Attaching the mount (continued):

3. To complete your solution you will need a Zirkona for Big Rigs mount. Attach the Zirkona mount to the Freightliner M2 dash mount with the #10-32 x 1" machine screws, flat washers, and lock nuts supplied in hardware bag 7120-880. The Zirkona mount can be positioned anywhere along the top of the Freightliner M2 mount that best fits your specific application.

4. Attach the device being mounted to the Zirkona for Big Rigs mount with the hardware supplied with the device. Position the mount for best viewing by the driver.
