If you need assistance or have questions, call Gamber-Johnson at 1-800-456-6868

Installation:

1. Remove the OEM Center console by loosen the 4 nuts using 10MM socket.(shown in figure 1)
2. Remove the OEM center trim by loosen the 2 bolts holding it using 7MM socket. Remove the OEM 12v/USB/E-brake from the Trim, (to remove the E-brake use T20 socket.)

Figure 1

Figure 2

3. Remove the 2 nuts holding the OEM electronic Controller with 10MM socket. (do not remove the controller)

Figure 3

Installation (continued):

4. Now place the GJ 2020+ Utility console box in place, align the mounting holes with the OEM studs as shown in Figure 4. and hand tighten the OEM nuts.

5. With the Console in place, installed the trim wings using the hardware provided, #10 washer and #10 screw to secure the wings to the console (Blue arrow) and use the OEM 7MM (yellow arrow) bolt, to secure the wings to the OEM dash. (Figure 5)

Figure 4

Figure 5

6. With everything in place, tighten down all bolts and nuts and check to make sure everything is secure.

*The Top Plate and Center Brace on both console boxes are designed to be removable to aid in installation and cable routing. If either item is removed Gamber-Johnson recommends reinstalling the screws with a drop of Blue 242 Loctite to prevent loosening. Torque the (4) top plate bolts to 65-80 in-lbs when reinstalling.

Installation (continued OEM Relocation):

For OEM E-brake switch (blue arrow)/12v (yellow arrow) /USB (green arrow) can be relocated to the Provided face plate and hardware

Optional:

If the Vehicle is equipped with the factory rear wire chase, a Gamber Johnson wire cover (7160-1407) can be installed to complete the wire chase to the gamber johnson 2020 Utility Console. *7160-1335 Short console box does not require the cover kit. as it will attach directly to the wire chase
