ZIRKONA, MULTI-FUNCTION PIVOT ARM

Revision

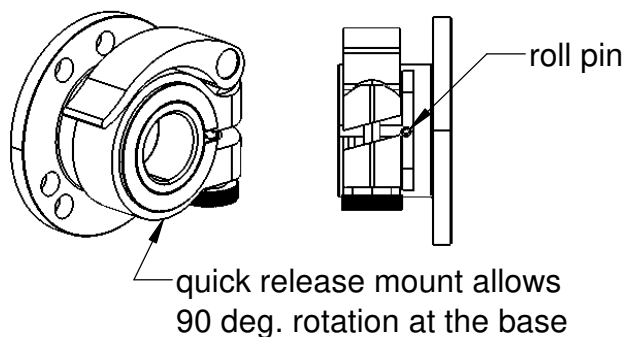

Rev A

Form

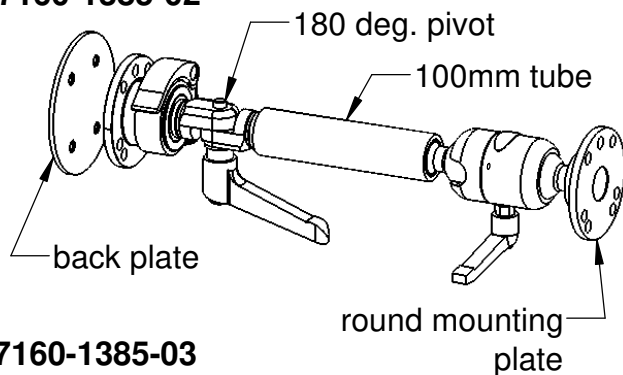

INST-919

Printing Spec: PS-001

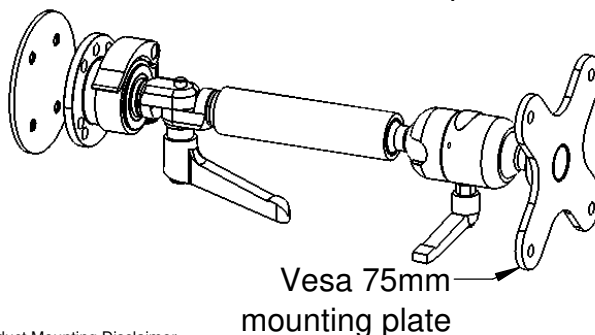

This instruction sheet is for mounting the Zirkona multi-function pivot arm with either a round mounting plate for Vesa 75mm mounting plate. The assemblies are shipped pre-assembled and the components are held in place with epoxy so they can not come apart.

7160-1385-02

7160-1385-03

Attaching the mounts:

1. Determine the location of the mount in the vehicle. The quick release base can be removed to make mounting easier. The quick release allows the user to rotate the arm at the base 90 degrees. Note the roll pin location in the slot when mounting to make sure you have the range of motion desired.

2. The quick release base is attached by drilling (4) 7/32" holes in the flat surface where the mounts will attach. Use the quick release base or the back plate to mark the 4 locations before drilling. The hole pattern is 30mm x 38mm.

3. Place the back plate (with the pressed-in nuts) behind the previously drilled mounting surface.

4. Use the #10-32 x 1" long screws and washers found in hardware bag 7120-0861 to attach the mount to the flat mounting surface by running the screws through the quick release mount, the previously drilled flat surface, and into the back plate with the pressed-in nuts.

Attaching the dock:

1. Attach the device cradle to the mounting plate using the hardware supplied with the cradle.

Product Mounting Disclaimer

Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brake lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with original vehicle manufactures specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.
