SOLUTION FOR YOUR LIFT
VEHICLE.

MOUNTING SOLUTIONS FOR EVERY LIFT VEHICLE

Secure your tablets and equipment with our superior mounting solutions, for ultimate peace of mind. We offer a wide range of turnkey solutions that are configurable for your material handling vehicle's specific make and model. Our ergonomic no-drill solutions enhance driver efficiency, reduce installation time, speed up operations, and improve overall workplace safety. To narrow down the best solution for your fleet begin by asking yourself these four important questions:

1. WHAT DEVICE IS BEING MOUNTED?

Identifying your device ensures that you get the correct dock or cradle to support your specific need and desired connectivity.

2. WHAT MODEL VEHICLE IS THE DEVICE BEING MOUNTED TO?

Knowing the make and model of your vehicle will allow us to recommend the best location and corresponding product needed to mount your device.

3. WHAT IS THE VEHICLE'S VOLTAGE?

By knowing the voltage or power requirement of your lift vehicle we can ensure that you get the appropriate power supply for your specific need.

4. WHAT ACCESSORIES ARE BEING MOUNTED?

Understanding your accessory needs will allow us to build the best material handling solution for your team.

GAMBER-JOHNSON
**CRADLES AND
DOCKING STATIONS**

CRADLES & DOCKING STATIONS

Secure your tablets and other devices with a Gamber-Johnson cradle or docking station. Cradles keep your device safe and secure without port access, while docking stations replicate the device's ports for easy and secure access. Either way — we have a solution that will meet your needs in the most secure, ergonomic configuration possible.
