

# ELD MANDATE

## What you need to know:

The ELD mandate states that drivers are required to maintain records of duty status (RODS) using an electronic logging device. This helps to create a safer driving environment. Gamber-Johnson's logistic products bundled with a tablet computer offers a safe and ergonomic solution when on the road. Our numerous cradle options offer all-day charging capabilities and our mounts are easy to install and provide a sturdy platform for a variety of devices.

RUGGED. RELIABLE. RESPONSIVE.

# ELD Solutions

## DOCKS AND CRADLES

Keep your device safe and secure with a Gamber-Johnson cradle for your technology. When combined with our vehicle mounts, these products provide the perfect solution for your device when on the road.

## LOGISTIC MOUNTING SOLUTIONS

Our no drill vehicle specific mounting solutions are easy to install and designed with driver safety in mind. Our OEM specific mounts can be pre-configured allowing for a cost effective and efficient installation.

**zirkona**

Our Zirkona products feature an innovative, encapsulated joiner that provides all axis orientation. This allows the driver to adjust the device as needed. Zirkona can be configured to meet any fleets mounting need.
