

ELD MOUNTING SOLUTIONS FOR YOUR LOGISTIC FLEETS

For Freightliner, International, Kenworth,
Peterbilt, Volvo and other OEM vehicles

SECURE YOUR ELD DEVICE WITH A NAME YOU CAN TRUST

Gamber-Johnson's logistic products bundled with a tablet or hand-held computer offer a safe and ergonomic solution when on the road for ultimate peace of mind. Our numerous cradle options offer all-day charging capabilities and our mounts are easy to install and provide a sturdy platform for a variety of devices.

ELD COMPLIANCE: WHAT YOU NEED TO KNOW

The ELD (Electronic Logging Device) mandate states that all commercial motor carriers and truck drivers are required to maintain records of duty status (RODS) using an electronic logging device by December 16th, 2019. This helps reduce paperwork, increase efficiency, and create an overall safer driving environment.

CRADLES & DOCKING STATIONS

Secure your devices with a Gamber-Johnson docking station or cradle. Docking stations replicate the device's ports for easy and secure access, while cradles keep your device safe and secure without port replication. Either way — we have a solution that will meet your needs in the most secure, ergonomic configuration possible.
