

SECURE TABLET KIOSK FOR IPAD 10.2

Adaptability at its core.

The secure iPad kiosk and tablet enclosure is designed for wall or surface mounted tablet installations in a wide variety of environments. Formed sheet metal gives added structural integrity which creates a slim-line surface or wall mountable and security enclosure with added room for power routing, peripherals and add-ons such as USB hubs.

WEIGHT	HEIGHT	WIDTH	DEPTH
15.8 lbs / 7.17 kg	7 in / 17.78 cm	15 in / 38.1 cm	11 in / 27.94 cm

Features

- A locking tablet or iPad kiosk to mount on a wall or surface
- Easy-open access with secure key lock and padlock bar (padlock not included) for additional security
- Easily cleaned and disinfected
- Home button is covered to prevent damage and tampering
- Ample room inside for cables and peripherals
- Kiosk positions the tablet on a 30 degree angle that creates the perfect viewing angle on both surface and wall mount kiosk installations, creating easily accessible secure tablet experiences in retail, healthcare, hospitality, tourism and many other industries
- Side panels for future expansion options including adding payment devices
- Mount over electric wall plate for easy power routing
- Compatible with iPad 10.2
- Limited Lifetime Warranty
