Product

7160-1409

Equinox Luxe 6200 Case

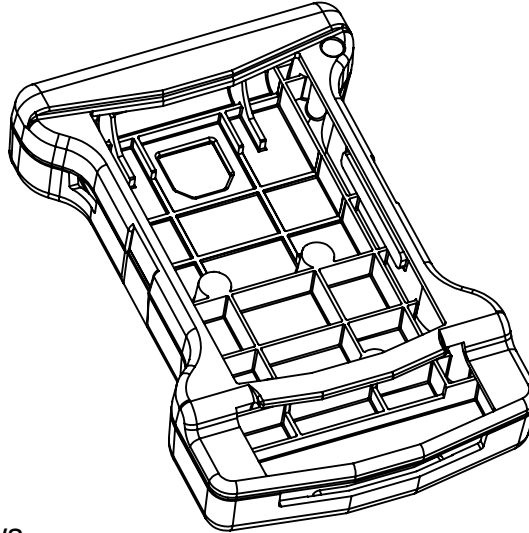

Revision

Rev A

Form

INST-1047

Printing Spec: PS-001

**Contents:**

Case Front

Case Back

(4) #4-40 x 0.375 Flat Head Screws

Tools Needed:

Phillips Screwdriver

The case ships fully assembled and will need to be disassembled to insert the Equinox device inside.

1. Remove the four screws securing the two halves of the case together.
2. Once removed separate the case halves and place the device inside the back half of the case. It should fit snug between the foam padding on the sides and bottom of the case.
3. Place the front half of the case over top of the device, aligning it with the back half.
4. Reinstall the four screws removed in the first step being careful not to overtighten. Only tighten by hand to avoid excess torque.

Optional:

A lanyard can be attached to the device using the pass through hole in the upper right portion of the case. Also the four threaded inserts in the back of the case, #8-32 thread, can be used for attaching other accessories. Be mindful of the depth of the inserts when choosing the length of hardware to be used.

Product Mounting Disclaimer

Gamber-Johnson is not liable under any theory of contract or tort law for any loss, damage, personal injury, special, incidental or consequential damages for personal injury or other damage of any nature arising directly or indirectly as a result of the improper installation or use of its products in vehicle or any other application. In order to safely install and use Gamber-Johnson products full consideration of vehicle occupants, vehicle systems (i.e., the location of fuel lines, brake lines, electrical, drive train or other systems), air-bags and other safety equipment is required. Gamber-Johnson specifically disclaims any responsibility for the improper use or installation of its products not consistent with original vehicle manufactures specifications and recommendations, Gamber-Johnson product instruction sheets, or workmanship standards as endorsed through the Gamber-Johnson Certified Installer Program.
