

EDUCATION

SOLUTIONS GUIDE

A PREMIER EDUCATION EXPERIENCE

Premier Mounts has provided rugged and reliable display and projector mounts to K-12 and higher education spaces since our inception in 1977. We work closely with our customers in the education space to provide products to support the technology for educators to enhance their students' learning experience.

RUGGED

We use heavy-duty, well-manufactured products to create robust mounts that are designed with the best durability and ease of installation in the industry.

RELIABLE

All of our products go through rigorous quality assurance testing and have a limited lifetime warranty.

RESPONSIVE

From the moment we pick up the phone and after the product is received, we are quick to respond and always available to assist.

A NEW ERA OF LEARNING

We have seen a significant shift in how we learn and collaborate over the past few years due to COVID-19. That shift has brought about great developments in technology and how we engage with it. From PTZ cameras to interactive displays to all-in-one soundbars, new technology seems to be popping up every day. This has not changed anything we do at Premier Mounts. We still make it a point to engage with our customers and help them enhance the learning and teaching experience through technology.

PREMIER IN YOUR SCHOOL

CLASSROOM

Collaboration and engagement are increasingly vital to the education experience to ensure every in person and remote student has an equitable learning experience. Premier Mounts supports this experience with wall, projector, and whiteboard mounts.

AUDITORIUM

Large-format displays are becoming a go-to solution for communication for large groups in auditoriums and recreational facilities. Premier has solutions to mount video walls, DvLED, and large format LCD carts.

ON THE GO

As learning spaces become more dynamic, technology needs to be protected. Infocase, a Gamber Johnson company, provides cases to protect laptops and tablets. (See more about Infocase on pages 6-7)

DIGITAL SIGNAGE

Digital signage is not just for advertisers anymore. It is a means to provide regular updates about what's happening around campus, wayfinding, and communicate safety measures in the event of an emergency.

FLAT-PANEL DISPLAY MOUNTS

Combining strength, flexibility, and innovation with quality construction and sleek modern design, Premier's flat panel display mounts accommodate displays of all sizes. Our complete line of fixed, tilt, and swingout mounts can help position your flat-panel exactly where it needs to be for optimal viewing.

FLAT WALL MOUNTS

P2642F

VESA: 200mm x 200mm - 535mm x 400mm

PROJECTOR MOUNTS

Premier has a variety of universal projector mounts that can be fine-tuned to the optimal viewing angle for classrooms, study rooms, auditoriums, and more.

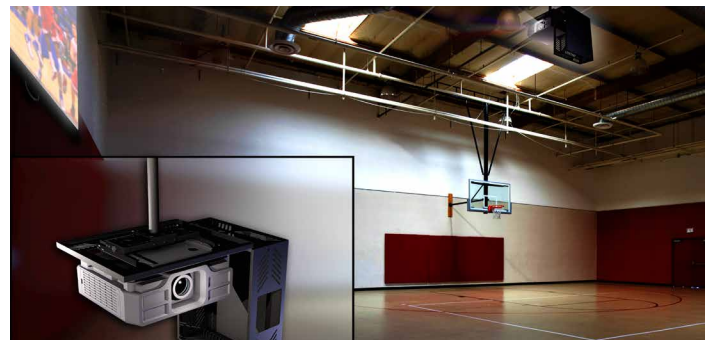

PROJECT WITH EASE

We engineered our mounts with ease of installation and adjustment in mind. Our universal mounts have tool and toolless adjustment points that enable pin-point image alignment with ease. Additionally, our project mounts are OSHPD approved, UL Listed, and include Lock-It security hardware to provide extra piece of mind in classrooms and other high traffic areas.

MOUNT SMARTER

Premier Mounts is a one-stop shop for your mounting needs. We offer a variety of mounting hardware and accessories including plenum-rated ceiling storage boxes, various-length drop pipes, and ceiling adapters to support your project. Our team is ready, willing, and able to help you spec your next project.

HOW TO ORDER

STEP 1
CHOOSE A
PROJECTOR MOUNT

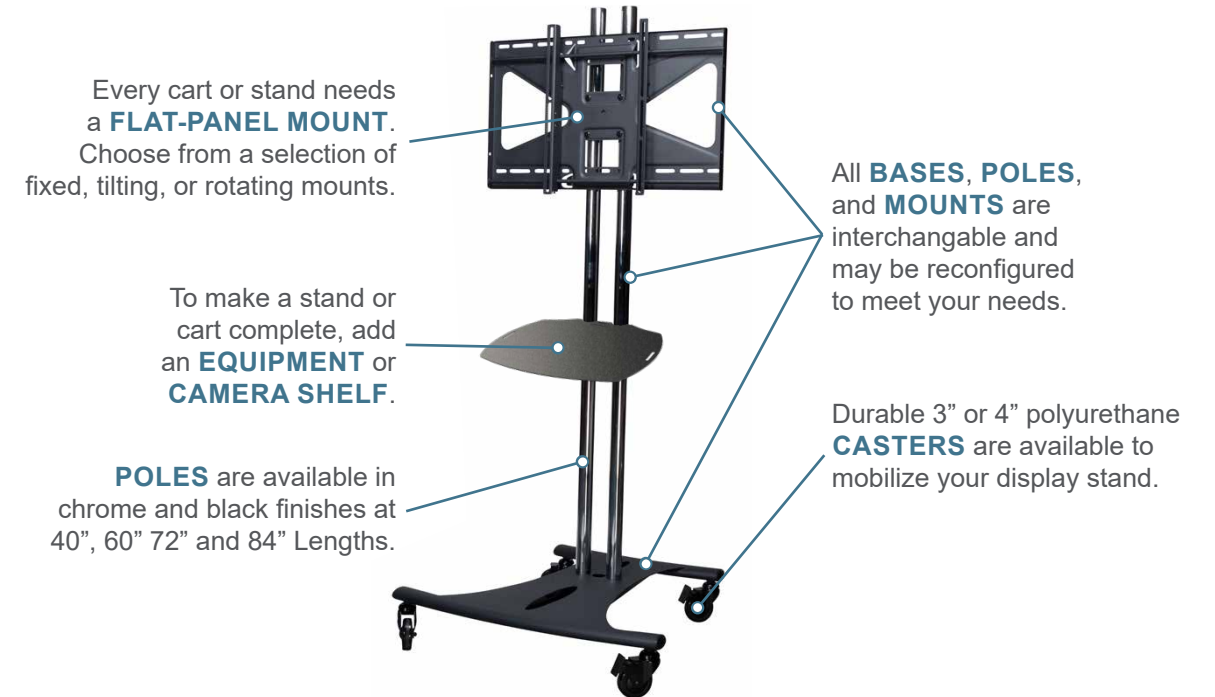

STEP 2
CHOOSE MOUNTING HARDWARE
AND ACCESSORIES

STEP 3
CHOOSE A PIPE

CARTS & STANDS

Premier Mounts' Display Carts & Stands accommodate a wide range of display sizes and are perfect for portability or when wall-mounting is unavailable. From K-12 to colleges and universities, equipment needs to be moved from classrooms to auditoriums and lecture halls. Faculty and staff need the mobility to arrange A/V equipment to best suit their environment.

HOW TO ORDER

STEP 1
SELECT A **BASE** that fits
your project needs!

STEP 2
PICK YOUR **POLE**
LENGTH Choose from
different column sizes
and finish: 40", 60",
72" and 84".

STEP 3
CHOOSE A **MOUNT**
based on the VESA
pattern and display
weight.

STEP 4
MOVEMENT AND
ADJUSTMENT choose
how much tilt and
rotation is needed.

STEP 5
ACCESSORIZE: add a
brochure holder, or
equipment shelf.

STATE-OF-THE-ART ACCESSORIES TO HELP MINIMIZE DEVICE DAMAGE

Our durable cases are engineered to help your project soar! Infocase's wide array of protective products are built to tackle the everyday rough and tumble life of the K-12 school system.

Since 1992, we've had the privilege of interacting with K-12 1:1 technology OEMs and other thought leaders. Also, by working hand in hand over the years with schools and students, we're proud to be an integral part of the education technology evolution.

We accomplish our mission by crafting innovative, solution-oriented products that exceed the expectations of our clients. Our experience in hundreds of schools has taught us that we must listen to what schools need and evolve our products and relationships to best serve K-12.

WITH OVER 35 YEARS OF EXPERIENCE,

we've had the privilege of working alongside K-12 edtech thought leaders and innovative partners.
