

## UFP-1065 - VESA Extension Adapter Plates

The extension adapter plates increase VESA's horizontal and vertical lengths by 108 and 160 mm, respectively.

### Parts List

(4) Extension  
Adapter Plates

(4) M8 Lock  
Nuts

(4) 5/16" Flat  
Washer

(4) M10 x 30mm  
Screws

1. Attach the extension adapter plates to the flat panel using four mounting screws and four (4) Griplate™ washers. Do not overtighten.
2. Place the universal bracket arms over the threaded mounting studs.
3. Ensure the alignment stubs on each adapter plate are correctly seated in the universal bracket slots to maintain alignment and level during installation. See Figure 2.
4. Place one (1) 5/16" washer and one (1) M8 lock nut on each threaded mount stud.
5. Use a socket wrench and 1/2" socket to tighten all lock nuts.
6. Use a screwdriver and tighten the mounting screws.

If M10 x 30mm mounting screws are needed for your installation, Griplate™ washers cannot be used. Please use the four (4) 5/16" flat washers (supplied) with the M10 x 30mm screws to attach the adapter plates to the flat panel.
