

Standard Freight Program

The Premier Mounts Freight Program applies automatically to all Stock Product standard ground shipments within the continental USA. Custom & special order products are excluded from the freight program.

Customer is responsible for shipping charges on custom product orders. Third party billing is available and must be notated on your purchase order with account number you wish to bill against.

To calculate your flat rate shipping charge, refer to the chart below. Your freight charge is the indicated percentage of the total order value & based on product weight.

All shipments will be FOB:

- Corona, CA
- Buffalo, NY
- Las Vegas, NV

Carriers will be selected at the discretion of the factory. The flat rate freight program applies to all ground service shipments within the continental USA. Shipments to HI, PR, AK or other international destinations are based on actual freight carrier rates and freight charges are added to the invoice.

If you wish to use air or any other expedited delivery service, you must include that information on your purchase order. Your order will then be shipped prepaid and freight charges will be added to the invoice.

We appreciate your business!

Order Value	Products Under 50 lbs.*	Products 50 lbs. or Greater*
\$1 - \$999	7% of Order Value	10% of Order Value
\$1,000 - \$2,499	6% of Order Value	9% of Order Value
\$2,500+	5% of Order Value	8% of Order Value

*The weight is based on product weight or dimensional weight, whichever is greater.
